### 1.4 Monthly Prison population trends from July, 2024 to February, 2025

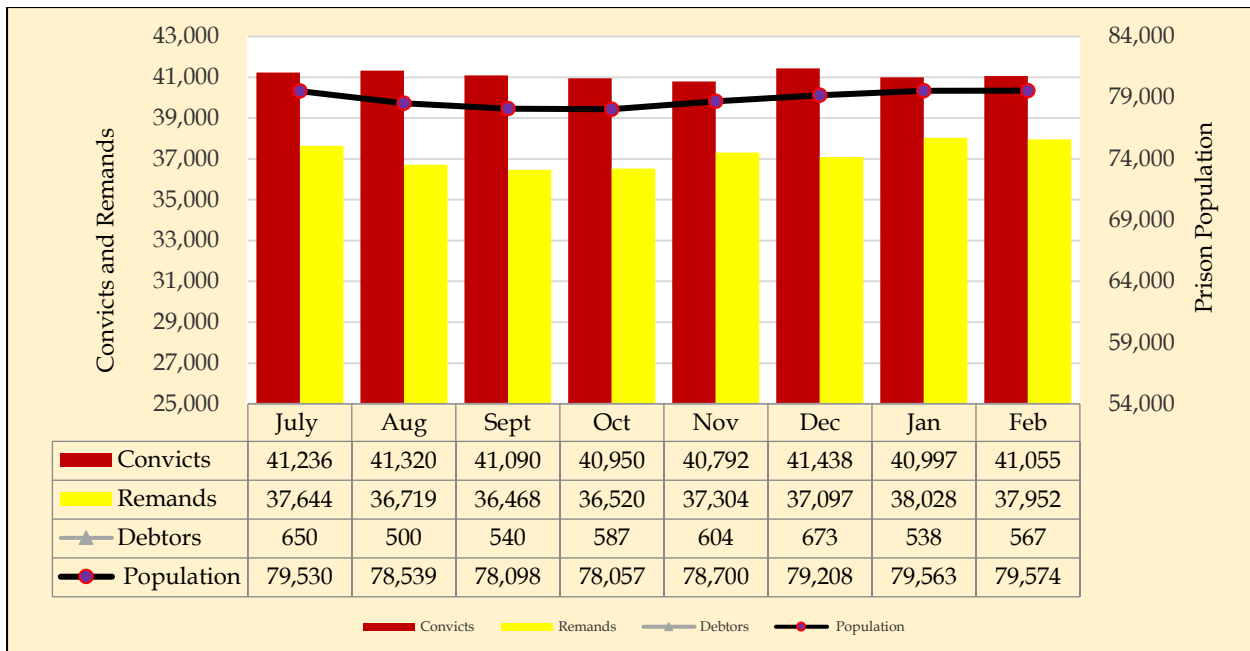

Figure 1.3 Monthly prison population trend for the period July, 2024-February, 2025.

Figure 1.3 shows the prisoners' population trend for the financial year 2024/25 from July, 2024 to February, 2025. The figure indicates a downward trend for the first four months during which the monthly prisoners population decreased from 79,530 prisoners in July, 2024 to 78,057 prisoners in October, 2024. The prisoners population thereafter started increasing to the current 79,574 prisoners in the month of February, 2025. The general rise in prisoners' population in the last four months may be attributed to increased crime rate, vigilancy of law enforcement agencies in apprehending criminals before, during and after the festive season.
